Normandy Courses

Dieppe

's 8th oldest course (Designed in 1897 by Willie Park) and a delight from the minute you step into the welcoming clubhouse. Not a long course but the tight approaches and small high quality greens will force you to be on your mettle. Don't be fooled by its apparent shortness - this one bites.

Champs de Bataille

Fantastic woodland course - every hole is full on interest and challenge - two new holes in the middle of the wood complete what will be a fantastic experience for you. You will often feel like you are the only people on a top class course.

Etretat

Perched high on the cliffs above the town this 110 year old links set up is a delight to play and just as good to look at the views from. Green fees offer unbeatable value in the week. Buggies available but not many so best to book in advance if you want one.

St Saens

Good quality course midway between Rouen and Dieppe and just off the motorway from Calais to Rouen. An entertaining mix of 3 loops of 6 holes starting with parkland then woodland and a final links style section. Absolutely excellent value and a great place to start your break. There are hilly bits in the course but buggies are available.

Golf du Havre

Medium length at 6,500 yards is quite an open course and good flat easy walking. It isn't a pushover though as it is well bunkered and the wind is often an added challenge - its age gives it great quality especially on the greens. An enjoyable and fair golf course

L'Amiraute

A very well planned golf course with lots of fairway to tempt you to hit tiger lines but will teach you a lesson for less than the best. The real hazards are in the water before several greens, the superbly placed bunkers and the very quick greens.

Normandy Courses

New Golf De Deauville

New Golf de Deauville is very much the in club in this fashionable seaside town. It is a quality parkland course designed by the great Tom Simpson and has lots of variety in its setup. Doglegs, tight fairways, narrow greens and a couple of smashing long par 3s. is well worth the playing but it is not cheap especially in high summer, when the French come racing, and handicaps (24 max) are required. Buggies available

St Julien

Fantastic visual setting for this open course with plenty of fairway to go for but exceedingly well placed bunkers and a fair bit of water to punish the wayward. Lots of great approach angles into good quality greens .It's kind of American in its feel in that you need almost to play target golf to score well. The clubhouse is an old Cider press and lacks for nothing in warmth and hospitality.

Omaha Beach

Superb course made up of 4 loops of 9 holes each of a different character but all top quality. The Mer hugs the cliff line with stunning sea views , the Bocage is classic parkland and L'Etang is american style - wide and watery. Whichever you play it's a good choice.

St Gatien

Decent golf course with 3 loops of 9 of similar parkland quality and style. The clubhouse is a wonderful old cider press and its warmth and quality will enhance your round.

Le Golf Parc

About 70 minutes from and 25 or so from this is an absolute gem. Beautifully sculpted fairways , lots of water , great fairways and huge tired greens make it a rare treat even in . Lovely and restaurant plus buggies included in the green fee make this one not to miss - sadly now only available to guest of the on site Gingko Hotel.
